Bluestar's Frequently Asked Questions

What finance options are available?

At Bluestar Leasing we typically offer finance lease and lease purchase agreements, we also have a range of specialist schemes that cater for phased installation projects. We will explore all the options available for your business.

Should I talk to my bank?

Your bank will most likely assist but it could impact your current arrangements and may require you to offer additional security. Using your bank for all finance needs isn't generally considered the best practice. Take advantage of additional credit resources and leave your banking facilities free for working capital or short term borrowing requirements.

How long can I finance equipment for?

Depending on the asset type we typically finance equipment over 2-7 years. The leasing period should be no longer than the expected useful life of the equipment.

Do I have to insure the equipment?

Yes. As soon as you take delivery of the equipment you are obliged under the terms of the agreement to insure it against loss or damage. The finance company may ask you for proof of insurance and if you do not have any, arrange it on your behalf. Often this premium can be refunded on a pro rata basis when you provide evidence that sufficient cover is in place.

My business is new, can I still lease?

Yes. We have relationships with many specialist funders who welcome business from both new and young companies. Call us today and one of our team will explain how it works.

What equipment can be leased?

We finance the total solution which includes the equipment and all delivered services such as project costs, installation and commissioning.

How do I make my payments?

Monthly or quarterly Direct Debit is the assumed method of payment. It may be possible to pay on an invoice only arrangement but there is likely to be a 2% increase in the payments to cover the extra administration involved.

Can I make changes to my agreement during the term?

Yes. We pride ourselves on being able to offer you flexible finance solutions. You are free to upgrade, make additions or settle the agreement at any point. There are various options available that we would be happy to discuss with you. Subject to credit.
